DAY_10_2

JOB

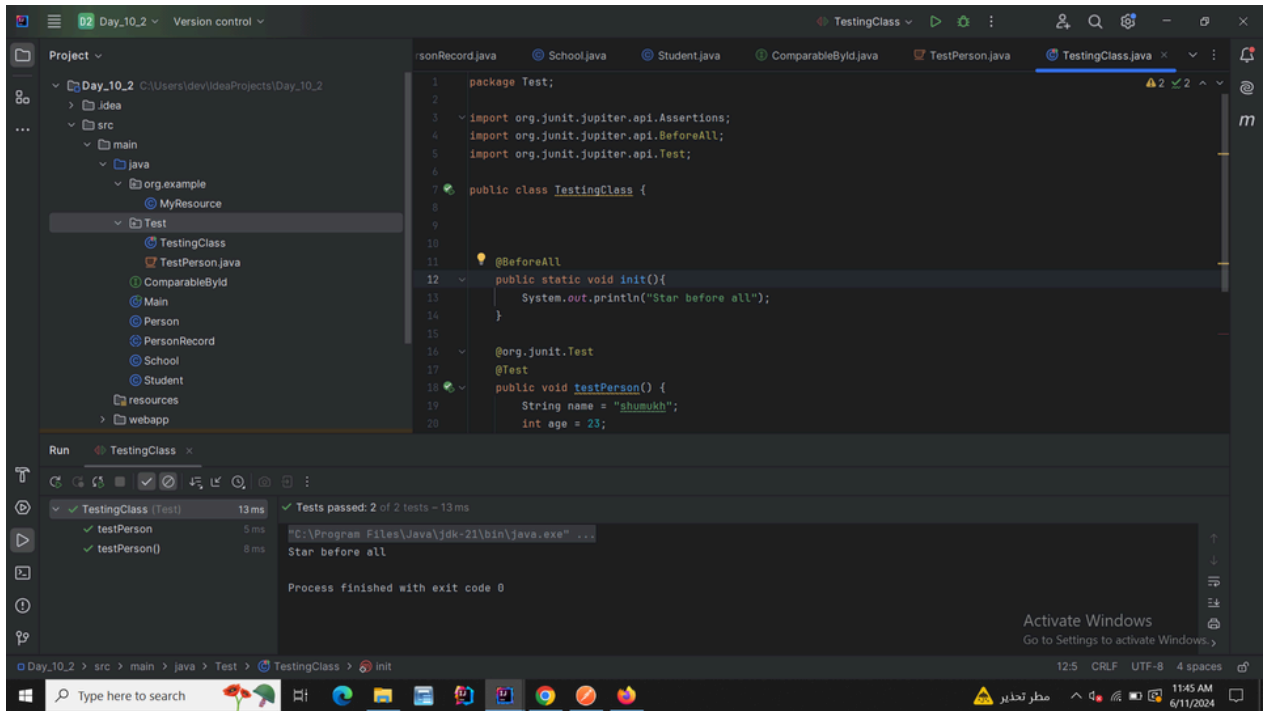

By:

Shumukh Alsulami

10/6/2024

image for code

- Test case for Person

The screenshot displays an IDE interface with a project named 'Day_10_2'. The project structure on the left includes a 'Test' directory containing 'TestingClass', 'TestPerson.java', 'ComparableByld', 'Main', 'Person', 'PersonRecord', 'School', 'Student', 'resources', and 'webapp'. The main editor shows the code for 'TestingClass.java':

```
1 package Test;
2
3 import org.junit.jupiter.api.Assertions;
4 import org.junit.jupiter.api.BeforeAll;
5 import org.junit.jupiter.api.Test;
6
7 public class TestingClass {
8
9
10
11     @BeforeAll
12     public static void init(){
13         System.out.println("Star before all");
14     }
15
16     @org.junit.Test
17     @Test
18     public void testPerson() {
19         String name = "shumukh";
20         int age = 23;
```

The Run tab at the bottom shows the execution results for 'TestingClass (Test)'. It indicates that 2 tests passed out of 2 tests in 13 ms. The test results are:

- testPerson: 5 ms
- testPerson(): 8 ms

The console output shows the message 'Star before all' and 'Process finished with exit code 0'. The Windows taskbar at the bottom shows the time as 11:45 AM on 6/11/2024.
